

NDZ

Nastro Curvo Doppio Snodato
Convoyeur Flexible Haut Et Bas
Z Articulated Conveyor

Z articulated Conveyor

designed specifically for storing the pieces in the center of containers or worktables; by adjustment of the flat part on the top, it's reduce the impact and so the damage of the piece during falling.

As each conveyor is manufactured according to customer

needs, this model fits better than any other variables that occur at work, becoming in turn a belt almost flat, sloping or curved.

It can be installed with any type of belts.
